This software is a screensaver for all the fans of small screensavers. The effect is very attractive. The screen will display a high-quality image and will be accompanied by sounds. The screen will remain black, the only thing that can be seen is the burning hand on the desk. If you move the mouse, you will see the cursor in the location you are moving. You have a variety of configuration options, such as the picture and the sounds. The support of multi-screensavers (you can have many screensavers simultaneously) is also configurable. The application provides quality images and supports different types of formats: PNG, GIF, BMP, JPG, TGA, PCX, PCT, TIFF, and BMP. Features: - High-quality images - Interactive configuration - Burn Images - Several pictures, one after the other - Supports a wide variety of formats - Support for multi-screensavers - Integrated support for multi-tasking Testimonials: [EDIT] I've been using it for more than 2 weeks and still enjoying it!
